WERE YOU DIAGNOSED WITH MELANOMA?

LET'S GROW (A GARDEN) TOGETHER

Researchers at the University of Arizona are working together to learn how community gardening may improve the health and well-being of survivors of melanoma.

You may be eligible to participate in a study on community gardening at no cost to you if you are:

- Diagnosed with Melanoma
- Currently living in Pima County
- Aged 18 years or older
- Willing to complete online surveys about your health and wear a sensor to learn about UV exposure
- Interested in learning more about sustainable desert gardening

All gardeners will be provided a conveniently located garden plot, materials and supplies, and a mentor.
