Volunteers Needed for a Research Study at the University of Arizona

We are interested in finding ways to help older adults stay independent by managing their high blood pressure.

You may be eligible to participate if you:
- Are 65 years or older
- Are taking at least one medication for high blood pressure
- Use an iPhone

What will happen if I volunteer?
- We will meet with you for 90 minutes at a location that is convenient for you.
- We will ask you to place one of your medications for high blood pressure in a bottle that we will provide. We will ask you to use that bottle for 4 weeks.
- At the end of 4 weeks, we will meet with you for 30 minutes. You may be eligible for a longer study using your iPhone.

We will not change your medications.
You do not need to travel to the University of Arizona. Participants will receive monetary compensation for their time.

If you are interested in volunteering, please contact the research team:
(520) 621-6765 or bp-system@pharmacy.arizona.edu
Skye Nicholas, MS (Study Coordinator) Jeannie Lee, PharmD (Study PI)

An Institutional Review Board responsible for human subjects research at The University of Arizona reviewed this research project and found it to be acceptable, according to applicable state and federal regulations and University policies designed to protect the rights and welfare of participants in research.
